Episode 21

Welcome to the Business Oracle podcast with me, your host, Ayesha Durrani. I'm an astrologer, business mentor and founder of the seven figure global brand Oath Oracle. In my work, I empower rebel soul entrepreneurs to change the world with their mission in medicine, create overflowing wealth and prosperity by doing their passions in this world and stand tall in their legacies.

This is my passion, and I'm so grateful to share it with you today. So thank you so much for tuning in and listening. And let's get into today's episode.

Welcome, loves. I have a - oh, I don't know if you heard that sound of my cat. She just got the very sudden zoomies. It was very exciting. Okay. I hope the mic picked that up, honestly.

So today's episode is all about one of my favourite, favourite topics. And that is the topic of Jupiter in Taurus. And Jupiter in general is one of my favourite topics because Jupiter is the planet of luck, abundance and opportunity. And for myself as, first and foremost an Astrologer, and then as a Business Astrologer, the planet of luck, abundance and opportunity.

It's also the planet of joy, of expansion, of our philosophies on life and what gives our life a sense of meaning. So it's so profound. It's not just like a money placement. It's abundance. Abundance is more than money. Abundance is being in overflow, feeling that security and having freedom and liberation and options, and Jupiter also is connected with travel.

So it's very, very much about freedom. This transit of Jupiter in Taurus is so fucking luscious and so delicious. It started May 16th of 2023 and it goes until May 25th, 2024. So Jupiter spends one year in a sign; it takes 12 years to go all the way around, which means the last time it was in Taurus was 12 years ago, and the next time it will be in Taurus is 12 years from 2024.

This is a wonderful opportunity for us all because whatever sign that Jupiter is in, the energies of that sign are being amplified and expanded in our experience of them and in our experience of life and business. And we can activate the Jupiter qualities of luck, abundance and opportunity by intentionally cultivating and embodying the highest expressions of the sign that it's in.

So it kind of works both ways, like we activate luck through the sign, and it's also expanding the qualities of the sign for the entire collective. Now, the reason why Jupiter in Taurus is so exciting to me is because Jupiter in Taurus is expanding the Taurus highest qualities, that exalted qualities of Taurus. And Taurus rules wealth, material possessions, financial security, as well as self-worth, sensuality, pleasure and embodiment.

Taurus rules the five earthly senses of the body. So Taurus is like a five course meal in a Michelin star restaurant, wearing a silk dress and your favourite perfume. All your senses are engaged and just feel so sensual. And Taurus is also associated with the Empress card in Tarot. So this transit is just overflowing with gifts for us, and especially us business owners and entrepreneurs.

Well, I mean, that's an interesting statement. That's not necessarily true, right? Everyone is going to be experiencing an increase of abundance during this time or has the capacity, has the opportunity and has the potential to increase their abundance at this time. But the beauty of being a business owner is that there's no limit to how much we can make.

Someone who has a salary job may receive bonuses, a raise, other types of unexpected money. But for those of us with businesses, there is no limit to how much we can create. So it's just such a wonderful time to tap in and to actually focus on growing our networks, increasing our revenue streams, saving our money and stacking our cash. That doesn't mean we're not investing it. It just means saving it is a really good idea right now for a lot of different reasons when it comes to the Astrology.

Understanding our Jupiter, understanding Jupiter in transit, which means Jupiter in the sky right now, like Jupiter is in Taurus. It's temporary. It's transiting from May 16th, 2023 until May 25th, 2024.

Before that, it was an Aries. After that, it's going to be in Gemini. These are temporary transits that are activating the collective during these periods of time and only these periods of time. So this is - my cat is being so funny right now. She's like, pay attention to me.

So during this period of time, Jupiter is offering us expansion in the qualities of the sign that it's in. So it's offering us, and it's inviting us to expand our wealth and our self-worth more than we probably realize, because Jupiter is a planet of luck. That means lucky breaks. Jupiter is a planet of optimism. That means positive expectations about these themes.

We also have Jupiter in our own birth chart and our own natal Jupiter is one of our most important, important abundance codes. It is the planet of luck and opportunity. So when we understand our natal Jupiter sign and we know how to feed it, what it's asking for and we know how to leverage it and express it in its highest expression, what we're going to experience is more luck and opportunities.

So what that means is lucky things happening. Guys like Lucky Girl syndrome, that's a thing, right? Lucky Girl syndrome. Like, 'I'm so lucky!' I've seen that on YouTube. I haven't really dug into the trend, but I feel like that's like a trending thing right now. Like Lucky Girl syndrome. We can all have Lucky Girl syndrome when we understand our Jupiter placements.

When we enter into business and we see how other people are doing things and we see that certain things work really well for other people, if we get into emulating what they are doing, we're not going to have the same results that they have because they have a different blueprint than us.

Things that other people are doing that we might see, even if they're in our industry, can be a really great idea. It could be just a, you know, a solid strategy. That's just a good idea all across the board. However, certain things are going to work better for some people and certain things are going to work better for other people.

So we want to find the path of least resistance. We want to put ourselves in environments and create offers and have strategies and marketing that is going to align us to our blessing placements on our chart because we're going to have a greater return on investment of the energy we put into those things.

Why? Because we get lucky breaks in that area of life.

Why? Because we activate luck and opportunity and that's part of success, right? Is these lucky quote unquote lucky things that might happen. Like, oh, luckily this major influencer ended up finding my work and sharing it. And then that called in a certain client or that called in a certain opportunity.

Luckily, someone randomly came across my work and invited me on a major podcast like these types of things. Luck and opportunity are this nectar that makes the journey so much sweeter and makes success so much sweeter and so much easier as well. So if there are certain things we could be doing, certain ways we can be engaging in business or offerings that are going to align us to our luck placement, that path is going to be so much richer.

It's going to be so much more fun. It's going to be so much more fulfilling. It's going to be so much more expansive. Instead of feeling like we're just like trudging along uphill, just dragging ourselves and it's so hard, right? So if we want ease in business, we want to activate and express the highest potentials of our Jupiter placement.

Luck, abundance and opportunity, expansion, liberation, the values of our lives, feeling connected, feeling on path and on purpose. Jupiter is a philosopher, so that's also letting us know our own philosophies about life. And if we, you know, we may not need to be told that by our birth chart, but our birth chart is a mirror that helps us gain perspective and it helps us see things very clearly and it helps us recognize everything we are not as well.

Which saves us a lot of time so we can click into alignment and do what we came here to do. So when it comes to Jupiter in Taurus, some really simple ways of connecting with this transit is getting in your body. Okay, so Taurus rules the five earthly senses of the body. Coming into the body, feeling anything you're manifesting.

Are you manifesting wealth? Are you manifesting success in your business? I mean, you're listening to the Business Oracle podcast, so you probably are right? What do you believe would be the physical sensation in your body to have the amount of money that you desire in your bank account? So if you

desire, you know, whether it's \$5k in savings, \$50k in savings, \$500k in savings, how would you - Use your imagination and drop into your body and feel...

How would that feel in my body to know that that was there? I'm going to give you a second to do this and I'm doing it too.

Breathe. Feel your root chakra ground into your body, feel the floor supporting you and breathe into your body and let it tell you how it would feel to have that number in your bank account.

A number that feels expansive, exciting, maybe a little scary, but not totally out of the realm of possibility. Like if \$1 billion just seems like a whatever, it's almost like you don't even register X, it's like so big. Then don't use that number. Use a number you'd be like, Oh my God, this is amazing. But it's not so unbelievable that it just doesn't even have an effect on you.

Breathing that into the body. How would you feel? Because ultimately we don't just want these numbers in our account. We want the feelings and the options and the reality that that's going to offer us. So if I had, you know, \$500,000 just chillin in my bank account, I would feel ahhh, a sense of relief around my solar plexus is what I'm feeling. I would feel the sense of openness in my upper arms, chest, kind of heart area.

Just like, ahhh, I would feel this freedom. I would feel more of a sense of play with my business and social media. And so these sensations, these somatic sensations are actually keys to us manifesting that reality. You can follow these keys like golden threads and you actually have the power to cultivate these feelings in your body through things like a daily practice.

Whatever your devotional practices are that help you feel grounded. And through just intentionally tapping into that energy, then you become more magnetic to more of that reality. And then, since Jupiter's like an opportunity, there are lucky breaks that are going to happen in your favour that are

going to bring you things that are going to increase that feeling and da da da da da, you keep following step by step by step until you've fully manifested that reality.

Another beautiful part of Jupiter in Taurus is connecting with Mother Earth, connecting with the material around in general, experiencing the treasures that the material realm has in store. For us, that's a feast for all of our senses, that's overflowing with options and textures and experiences and really just coming home to the body and coming home as children of Gaia that are here to live this abundant life like "the good Earth is rich and provides for all." I love that quote from the Great Dictator with Charlie Chaplin. "The good Earth is rich and provides for all". I love that vibe. I love that energy and nature is the ultimate abundance Queen.

When it comes to your own natal Jupiter, it's about understanding the sign that it's in on your chart as well as the house that it's in, which is the area of life where you will experience increased luck, abundance and opportunity. And if you're not putting yourself in that area of life, if you're not taking risks in that area of life, if you're not showing up to that area of life, you are missing out. Straight up. You're missing out.

When it comes to Jupiter in Taurus that's also transiting on a house in your birth chart. So it's bringing this blessing, this once in 12 year opportunity to increase your wealth and your worth, and in particular expanding that sensuality and sense of abundance and sense of stability and sense of embodiment and empress energy in a specific area of your life based on the house that it's in, in your chart.

So guess what, guys? I have masterclasses on these subjects. I have the Jupiter in Taurus Masterclass, that is, I believe it was an hour and 45 minutes of me transmitting just on Jupiter in Taurus and teaching you how to work with this in your own unique birth chart, which is unique and different to mine. The way that you're going to work with this opportunity is different than the way I'm going to work with this opportunity.

And if you're listening to this the week that it comes out, we have the next live masterclass, which is your natal Jupiter Abundance Codes, your Jupiter placement. I created these masterclasses based on invitation. I'm a projector in Human Design, so I received requests for this. And these masterclasses are

so on point for this current astrology because there's such a huge opportunity for us to massively expand our net worths as well as our self worth during this time.

And this is going to be really important as we move into the New Earth. It's very important that heart centered and soul centered people increase our resources because we are moving into crazier times. Guys, the crazy has not ended there. There is no end to reality rearranging and the chaos that we're currently in because we are birthing a fucking new age and we need resources to do this.

So that our health can be on point. So we can care for our families, so that our housing situation is secure. And even to the point of creating generational wealth, safeguarding pieces of land, preserving land, investing in causes, overflowing our abundance into the communities around us. We are going to need to come together in the New Earth. And the more resources that we have, the more impact that we're going to have when it comes to certain things in building this new Earth.

I'm so passionate about these masterclasses. I'm doing something I haven't done before, which is bundling them together. You can actually save with the Jupiter Wealth Expansion bundle. So normally these classes are \$111 each and you can get both for \$188. If you're listening to this when it first comes out, you're going to get instant access to Jupiter in Taurus, and then you can join the live Jupiter Abundance Codes for your own natal Jupiter placement.

If you are listening to this in the future, the link is still going to be there and you're going to get instant access to these extremely powerful masterclasses that are going to help you grow your wealth, grow your worth, and become deeply embodied your most sensual Empress energy self, and the version of you that is living your most luckiest life, like, #blessed. So Lucky Girl syndrome is one way of looking at it. Another way of looking at it is understanding our blueprint and understanding that we all have an area of life that a lucky star is shining down on, activating and trying to put our blessings on.

And if we're not showing up in that area of life, if we're not expressing the highest qualities of that sign, we're actually missing out on a lot of opportunity and abundance in our lives. And I really credit, you know, my own Jupiter placement for so much of what I've had the pleasure and privilege to experience in my business and in my life, but especially in my business.

I love this topic. Jupiter is so joyous and so expansive and just like such a fucking lot. So I hope to see you there. Thank you so much for listening. I hope that this episode has inspired you to dive into your own Jupiter placement and to just understand that the reason why we have astrology as the source codes to this matrix in this incarnation is so that we can take that information and that knowledge as power and use that.

We are never victims to the astrology. It's never putting us in a box. It's never limiting us. It is these source codes to the matrix. And with that knowledge comes the power to create different experiences and choose different timelines and experiences and realities for ourselves because we are all creators. So just remember that, my loves, and I will see you next time.

Thank you so much for being here. I adore you. Take care.
